Read Carefully

G, K, D, H designates Groff's, Kunderd', Diener's and Holland varieties respectively.

All bulbs are good young stock from $1\frac{1}{4}$ to $2\frac{1}{2}$ inches. We have used every precaution to keep true to name.

We have planting stock of bulbs marked * at one-fifth cost of bulb of same variety.

Bublets at one twenty-fifth of cost of bulb of same variety.

Having marked our stock at close price, and as bulbs are of extra ordinary size, we are asking for remittance of 6c. extra per doz. to partly pay carriage charges on all orders under five dollars, that amount and over we will pay express or postage.
